

Photos of children here

We take photos of learning to share with families. Every photo follows the choice each family made on their signed photo and video release.

- 1 Each family chooses.** Families pick a level from 0 (no photos) to 4. We check the family's choice before every photo we share.
- 2 Visitors, please do not photograph or record children.** That includes your phone. Thank you for helping keep every child safe.
- 3 No last names, birthdays or addresses** appear with any photo we share.
- 4 Change your choice any time.** Tell the director in writing and we stop new uses right away.
