38-child pilot | investment overview

One owned Independence, Missouri center • ages 2–5 • 38 children, all-day care • 12 months • first-month checkpoint • model pilot-38-v5.2, 13 October 2026

$347,911.98	$449,944.47	$286,007.37	$112,354.23
FUNDING ESTIMATE BEFORE FINANCING	YEAR 1 WITH CONTINGENCY	ANNUAL RECURRING	YEAR 2 OPERATING MARGIN AT $210/WEEK

What the investor needs to know	Current answer
Purpose	Prove the platform, curriculum, characters, family workflows and center operations with one real 38-child pilot before Phase 2 expansion.
Team	Owner serves as director, unpaid (market director about $60,240.72 all-in, excluded). 4 full-time caregivers and 1 part-time relief floater, all at $16/hour, no employer health benefit. 4 caregivers on the floor in 2 groups of up to 20 (Missouri 1:10, valid with no more than four 2-year-olds per group). No food worker, no paid substitutes. Wages $149,760.00. Caregivers hired as enrollment grows: 2 for up to 20 children, 3 for 21–30, 4 for 31–38 (Missouri 1:10, up to 4 two-year-olds per group; minimum two adults on site). Extra coverage: owner-director and head of administration, no added payroll.
Recurring cost	$286,007.37 per year before building payments; this continues after year one. Owner-set budgets: food and nutrition capped at $2,000.00/month ($24,000.00/year), held at the cap through the enrollment ramp, while menus still meet the Missouri meal pattern (5 CSR 25-500.202); toiletries and cleaning within $300.00/month ($3,110.18/year with paper towels halved); classroom and office consumables halved to $1,599.87/year; utilities (electricity, gas, water/sewer) locked at $1,500.00/month; tax preparation $1,000.00/year; curriculum mapping $7,500.00 and native Spanish review $1,500.00, one-time, with no recurring curriculum or Spanish review fee; RN consultation $2,000.00/year; administration cut to $5,872.00/year (part-time bookkeeper); building upkeep handled in-house (lawn, HVAC service, electrical, parking and staff mobile removed; snow halved).
Platform delivery	$95,852.20 Year 1: $57,000.00 completion; $20,400.00 one-time assurance; $18,452.20 annual service. Reusable-code audit, fixed-scope quote and working acceptance required.
One-time / contingency	$142,554.00 one-time; $21,383.10 contingency (15% of one-time). One-month cash floor: $23,833.95.
Building	Owner-specified $140,000 refinance-enabling need. Payoff, closing costs, lender terms and new payment are unknown.
Revenue	Owner-confirmed locked-in $210/week per child ($910/month via 52/12), 96% collection. 38 full-year places collect $398,361.60 before discounts. Full enrollment from month 8; first cash-positive month 6.
Repayment reality	At the locked-in rate, year-two operating margin is $112,354.23 before building/debt, with the owner as unpaid director. Break-even realized tuition is $651.16 per child/month (about $150/week). Positive before building payments and debt; the building payment and lender terms are unknown, so borrowing capacity is not established.
Funding estimate	$347,911.98 = $140,000 refinance need + $162,694.93 peak modeled deficit + contingency + one-month floor. Cost estimate only; not a financeable loan ask.
Payback timing	$142,554.00 one-time (months 1–7) vs $286,007.37/year recurring. Net cash positive from month 6; cumulative pilot cash positive in month 24 at the month-12 rate, before building payments and debt.
Terms	No permanent equity. Debt service only from cash after recurring operations and the actual building payment; lender rate, term, collateral and guarantees require an offer.
Deferred	National rollout, full animated season, bulk family tablets and unsigned licensing income are Phase 2.

Investor decision: first verify enrollment, licensed age/room capacity, payroll, bills, insurance and the building statement. Then release against accepted product, safety, security and cash gates. The digital cost explorer and 234-line CSV expose every priced row:

Digital cost explorer • Platform scope and acceptance • 234-line itemized CSV • Full current pilot plan

No profit, repayment or lender approval is promised. All figures are planning estimates until replaced by signed evidence.
