

Better days for children. A business beyond one center.

Futures Friends is building a character-led early-learning program for daycares, home providers and churches: curriculum, movement, meal planning, bilingual family resources and practical provider support.

THE REQUEST

\$240,000

Proposed business loan

INTEREST EARNED

\$80,520

33.55% over six years

STRUCTURE

Debt only

No equity, conversion or ownership

WHAT CUSTOMERS GET

For providers: curriculum and branded learning zones; educator, director and family portals; onboarding, training and ongoing support.

For families: a clearer view of learning, daily routines and bilingual resources that connect care and home.

HOW THE BUSINESS EARNS

Core: center tuition plus recurring program and support subscriptions for daycares and churches.

Additional channels: setup and training, branded carpets and posters, books, apparel and family products. Merchandise and setup fees are excluded from repayment coverage.

PROPOSED PROVIDER PRICING

Home

\$1,495 setup + \$89/mo

Starter

\$2,995 setup + \$229/mo

Complete

\$5,995 setup + \$349/mo

Church packages are separately scoped and priced. Billing depends on accepted program delivery.

WHERE THE \$240,000 GOES

- **\$90K** Center runway
- **\$30K** Portals / security

- **\$45K** Marketing
- **\$15K** Merchandise launch

- **\$25K** Operations
- **\$35K** Reserve

ILLUSTRATIVE LOAN / 9% ANNUAL INTEREST

\$1,800/mo

Months 1-12: interest only

\$4,982.01/mo

Months 13-72: principal + interest

Total repayment: **\$320,520.32** = \$240,000 principal + \$80,520.32 interest. Full funding at closing; fees excluded. Staged draws or early repayment change total interest.

THE REPAYMENT TEST

Center alone: **1.02x**

Month-24 growth case: 34 children + 20.76 expected partner accounts produce **\$7,014/month before debt** and **1.41x coverage** at 60% partner contribution; 40% yields 1.24x. A 4% tuition shortfall yields 1.16x. Model assumptions, not secured customers.

Proof still needed: paid pilots, capacity, license, payroll, collections and actual delivery costs. The slower first-year case shows a **\$29,080 cash gap**; base ending cash is \$28,880, below the \$35K reserve. Paid-provider traction and production acceptance remain unverified.

Funding choices: \$140K proof launch | \$240K execution | \$500K later expansion, subject to a separate scale plan.

Next: review the full plan, verify the evidence and agree staged funding terms.
